Concord Limousine is currently active and committed to reducing the environmental impact on air soil and water from our in house operations such as paperless invoicing, recycling, we currently have incorporated hybrid and "ECO-FRIENDLY" vehicles to our fleet. Concord informs all drivers of TLC regulations pertaining to environmentally friendly vehicles and encourages drivers when updating vehicles to purchase. In addition Concord Limousine has an in house security unit for the Drivers to ensure the same, this would include but not limited to inspections, reporting, updating, as well as advising on the purchase of the new Hybrid/eco-friendly vehicles.

Environmental stewardship is and must be an integral part of every Concord Limousine business practice, operation, job, and task. It is incumbent on each of us to assess our own roles and responsibilities and to help fulfill, to the utmost of our abilities, the commitments set forth in this statement.
